

DIARY NOTESExecutive Director-Comptroller*AW*

7 August 1965

1. Dick Helms buzzed about NSAM No. 336 to say that, while he thought we had to comply fully with this directive, he wanted to review all of the material prepared by DD/P before it was coordinated outside the Agency. I included this instruction in my memorandum to DD/P and set a deadline of 23 August for their submission.

2. Tom Karamessines buzzed to say that he found no fault with our "DCI Duty Officer" notice but that he had a nagging worry about some weekend duty officer who was not too familiar with clandestine operations going off half-cocked and taking prejudicial action. I told him that I shared his concern and thought that next week after we published the notice we should have an information session of the Deputies without the Director being present to elaborate on the procedures, and at which time he would have an opportunity to speak about the points which concerned him.

3. Bud Wheelon called to protest mildly to my returning his [] BW/CW paper. He said that this was a paper written at the Director's request and was meant to be merely a progress report on their exploration in this field. However, on more careful examination of his paper, at my request he agreed that they had in fact asked to spend [] over the next three years without submitting a specific program. They also had planned to get the money from the Reserve and I pointed out that we of course must have a program, and a good one, before we can think about going to the Reserve. He agreed to rewrite the paper.
